*All scans are HSA/FSA eligible.
Interest-free financing available.*

At TrueScan, we believe taking control of your health should be a top priority. Our proactive MRI scans give you the peace of mind that if something is going wrong inside your body, your chances of survival are highest.

Detect 500+ conditions, before symptoms

Traditional healthcare is failing us:

- ▲ **Only 14% of diagnosed cancers** are detected by routine screening tests.
- ▲ **The other 86% of cancers are found by accident or symptoms**, often when treatment options are limited.
- ▲ **Late-stage cancer is deadly.** The average 5-year survival rate is only 20%.

TrueScan gives you a complete, ongoing picture of your health.

Our scans identify serious conditions like stage 1 cancers, aneurysms, and autoimmune diseases at their earliest, most treatable stages.

Expert medical support after your scan

Our medical team makes sure you fully understand your results and what steps to take next. Every scan includes:

- ✓ **Video consult:** A physician on our team will walk you through your results.
- ✓ **Specialist support:** If needed, we will connect you with trusted specialists in our referral network.
- ✓ **Ongoing follow-up:** We will check in on your progress until your next scan.

Pricing

Torso
25 min **\$995**

Evaluates the central part of the body, including the chest, abdomen and pelvis (no spine).

Head & torso
45 min **\$1,695**

A more detailed version of the Torso scan that includes a brain evaluation (no spine).

Full body
60 min **\$1,995**

Our most comprehensive scan that evaluates your body from head-to-ankle, including major organs, brain, and spine.
